

2019 NEW PRODUCT SUPPLEMENT

— Old Souls — YOUNG AT HEART

Every day, EMPI designs, tests, builds and ships what we believe are the best products in the VW air-cooled market. This 2019 New Product Supplement represents not only EMPI's commitment to be #1 in the Industry, but it's commitment to expand to other market segments. Throughout this expansion, EMPI's focus to build products based on quality, fit and finish has never been lost, and we believe this new introduction of Porsche and Water-Cooled VW products is just the beginning.

INTRODUCTION

We at **EMPI** are proud to present this 2019 New Product Supplement Catalog introducing our expansion of new air-cooled, water-cooled, Porsche and JayCee products. It's a compilation of over **Forty-Five** years of select parts and accessories, featuring superior **EMPI**® products. As you browse through you will see that we have continued to expand our accessory and performance parts programs for both on and off-road. This catalog includes our extensive offering of Stock Replacement Parts. There are hundreds of new items available for immediate shipment.

EMPI offers you the **BEST** in **PRODUCT**, **SERVICE** and **SUPPORT**.

PRODUCT..."Fill Rate" has always been the cornerstone of our commitment to our customers. **EMPI** maintains the highest inventory levels in the Industry to service and support you and your customers. For your convenience we now provide certain shipping information within the catalog. Certain items are noted truck only. All cartons are now done by dimensional weight by UPS.

SERVICE...State-of-the Art packaging and shipping equipment combined with experienced and knowledgeable personnel, guarantee fast and reliable service. You'll not only receive your order quickly...but each product will arrive ready for display in our distinctive **EMPI**® packaging.

SUPPORT...Knowledgeable and courteous Sales Representatives are always ready to assist you in selecting the parts and accessories that are right for you and your customer. The correct part...for the correct application.

PART NUMBER ORDER INFORMATION:

1. Any number beginning with "JC" indicates that it is a JayCee Enterprise product. It will be supplied "Bagged".
2. Any Replacement part beginning by (98) and ending with (-0) will be supplied "Skinpackaged".
Example: 98-1002-0.
3. Any Replacement part listed under the OEM Number will be supplied in "Bulk".
Example: 111-105-305E, 00012.
4. Any number ending in (B) will be supplied in "Bulk".
(Except 11-4510-B, 11-4519-B, 11-4520-B, 11-4521-B). Example: 00-3181-B, 98-2024-B.
5. Any number beginning with "V" indicates that it is a VDO product and will be shipped in VDO packaging, using a VDO part number. (Example V3-3395-9).

CAUTION: Products in this **EMPI** Catalog which alter your engine performance are "**Legal in California ONLY** for racing vehicles which may **NEVER** be used upon a highway" and may not comply with the requirements of other state/local laws regarding noise or emission levels. Removal of any structural material to facilitate the installation of any new item may need to be compensated for by the installation of additional braces and supports to maintain the manufacturers original collision design. **EMPI** does not warranty the legality of its products, which do not comply with Local, State, or Federal Laws. Certain products are noted "Off-Road Use Only". We recommend that you check local regulations prior to ordering or installation.

EMISSIONS: All parts legal for use on Pre-Pollution controlled vehicles only. The California Air Resources Board (CARB) prohibits the sale or use of parts that will modify or defeat emissions systems in any 1966 and newer vehicle. This excludes true replacement parts.

DISCLAIMER: The information in this catalog has been compiled from reliable sources and is correct to the best of our knowledge. However, we cannot and do not assume any responsibility or liability for errors or omissions in this catalog.

EMPI is not, in any way, licensed, sponsored or affiliated with Jeep, Porsche, Volkswagen and the parts herein offered for sale are not Genuine Jeep, Porsche or Volkswagen Parts unless so specified. The use of recognized manufacturers (i.e. Ford, GKN, Jeep, Rhino, Yamaha, NTN, Porsche, Saginaw, Volkswagen, etc.) and their respective model names/numbers by **EMPI** is for the sole purpose of application and in no way denotes their use to infer or intend a direct connection between **EMPI** or it's products and those automobile manufacturers or factories.

EMPI®, **Race-Trim**®, **Auto-Haus**®, and **A Tradition of Performance**® are Registered Trademarks of **EMPI INC.** **Mr. BUG**™, **Treuhaft**™ and **Bugpack**™ are Trademarks secured by **EMPI INC.** © Copyright 2019, **EMPI INC.** Any reproduction of, all or part, of this catalog is strictly prohibited without the written consent of **EMPI INC.** Should any of our customers wish to reproduce part or all of this catalog, please submit a detailed request in writing to the address on the back cover of this catalog.

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. All parts legal for use on pre-pollution controlled vehicles only.

Billet Crank Trigger Distributor

Billet Crank Trigger Distributor

JayCee's Billet Crank Trigger Distributor is made from solid 6061t-6 aluminum and anodized for a professional finish. This distributor uses two roller bearings, a steel rotor shaft and shaft seal for high RPM with no failures. A non-resistor rotor to help deliver that HOT ignition spark. With the larger 2 piece cap, cross fire is eliminated and the low profile allows clearance for all over the top headers.

Billet Crank Trigger Distributor	JC22070
--	---------

JayCee Degreed Timing Clamp

This billet timing clamp is machined in house then anodized Red, Blue, Black or Silver! Then it's remachined with calibrated timing marks for easy adjustments. Set your timing once with a timing light and mark you distributor on the 30 degree line and your set. Adjustments are now made easy. Fits all standard style distributors and magnetos.

JayCee Billet Street Linkage - T1 IDA

This linkage assembly is smooth and strong. With the stainless steel rods and throttle stops, the aircraft style adjuster makes it a very precision and reliable kit. The billet base is solidly mounted to alternator/generator stand and includes custom nuts to eliminate any hardware changes. The linkage comes complete with a sealed bell crank bearing and all hardware, including right-handed tap, to make this a complete do-it-yourself package.

Type 1 Billet Street LinkageJC43600

Stainless Double Linkage Arm

Made from thick stainless steel, these arms will not flex or bend. Available in right and left sides for cross bar style or push pull. With the throttle shaft hole and the throttle stop clocked correctly, these arms will stop at "FULL THROTTLE". For center pull linkage.

Stainless Double Linkage ArmJC43610

Stainless Linkage Arm

Made from thick stainless steel, these arms will not flex or bend. Available in right and left sides for cross bar style or push pull. With the throttle shaft hole and the throttle stop clocked correctly, these arms will stop at "FULL THROTTLE". For crossbar linkage.

Stainless Linkage Arm.....JC43620

T1 Racer Linkage

JayCee's new Type 1 "Push-Pull" Racing linkage is the nicest on the market! Linkage consists of a billet Bell crank with a sealed bearing for smooth operation. We then anodize and laser engrave to ensure you're getting a genuine JayCee product. Also included is a billet stand attached to a hex post to keep the linkage straight and level. Rods include a left and right threaded rod end for easy synchronization; they attach to a left and right stainless steel linkage arms that are perfectly clocked. This is by far the nicest, user-friendly "Push-Pull" Racing linkage on the market today. For racing applications only.

Silver Billet Stacks

JayCee Billet Stacks

JayCee's new billet stack for the IDA Weber. Made from Billet 6061 aluminum, these stacks are one piece (no welded flange) which makes them stronger and thicker. With no modifications, these "bolt on" stacks will increase flow by a 21 CFM over stock. 3-1/4" high. The inside diameter is 3.5mm increase over the stock IDA stack. The larger stack also complements our original dust covers at a additional price. Also available in a 1" shorter version which sits the same height as a stock IDA stack. Sold individually.

Blue 6-Bolt
Mag Plate

JayCee Mag-Plate

JayCee's new Mag-Plate is our latest product in our line of CNC machined billet aluminum products. Made from 6061 T6 billet aluminum, this easy bolt-on piece needs no gasket because it's Buna rubber o-ringed, and comes with a snap-ringed magnet pre-installed as well as an Allen-head flush mount drain plug. This purpose built Mag-Plate also serves as an inspection device after each oil change, since it will trap all steel particles, if any, before they get to the oil pump. Available in anodized Red, Black, Blue, and Silver.

Black Full Flow
Extension Adapter

JayCee Full Flow Extension Adapter

JayCee has their new full flow extension adapter for the main oil galley in stock. This allows the racer to put the oil pressure to the mains and not the oil cooler side. A direct shot of pressure means less chance of bearing starvation and longer bearing life. This fitting is a fine compliment to the JayCee Bypass system.

69mm 4140 Chromoly Stock Crankshaft

The heart of any hi-performance engine is the crankshaft. These cranks are precision ground, micro-polished, nitrided and balanced. Forged from 4140 chromoly and uses stock VW main and rod bearings.

69mm Forged Stock Crankshaft **8119**

4340 Chromoly Stroker Crankshaft

86 Stroke counter-weighted crankshaft with Chevy Journals, made with the serious racer in mind. Multiple die stamp forged from 4340 chromoly. Additional features include dynamic balancing, drilled to 8 dowel and 8mm dowel pins are installed.

86 Stroke Crankshaft, Chevy Journals **8189**

EMPI Forged Chromoly I-Beam Rods w/ ARP 8740 Bolts

EMPI's I-Beam Rods are forged from chromoly to give you a high strength rod that's easy on your budget. ARP 3/8" 8740 Rod bolts add all the strength and reliability necessary for this rod design. Radiused caps aid in stroker clearancing. Combine with an EMPI counter weighted crank to build a dependable lower end for moderate performance engines. All rods are sold in matched weight. Torque these 3/8" bolts to 38 ft. lbs. Sets of 4.

Pertronix Flame-Thrower Coil

Flame-Thrower Coil, 40,000 Volts, 1.5 Ohm17-2984

Pertronix Flame-Thrower Billet Distributor

Pertronix Flame-Thrower Billet Distributors for VW Type I engines provide huge improvements over points distributors and long term trouble free operation. Simply install the distributor in the engine, connect two wires and start it up! Requires 9383 or 9387 Flame-Thrower wires.

Pertronix Flame-Thrower Distributor 9444-B

IMI Gear Reduction Hi-Torque Starter

The IMI-101 is a self supporting (no bushing needed) starter and has over 525 lb/ft of torque for big engines. These also have an adjustable solenoid location. This is a reduction gear starter like on newer import vehicles and weighs in at only 9lbs. They are also very compact, which provides added room on many kit car applications.

Fits:
Type 1
002 Type 2

1.2hp (1kW), 12V
IMI Starter..... 17-2955

Pertronix Flame-Thrower 8mm Custom Spark Plug Wires

Pertronix Flame-Thrower 8mm custom fit MAGx2 wires provide enhanced RFI suppression and dual current paths for more power delivered to the spark plug. These custom wire sets have factory terminated ends for a superior connection and perfect fit without cutting, crimping or splicing.

For use with 9441-B Flame-Thrower Distributors

Pertronix Flame-Thrower Spark Plug Wires (Black) 9387

Pertronix Flame-Thrower Spark Plug Wires (Red) 9383

"Smallternator" 55-60 Amp Kit for Type 3

55-60 Amp alternator conversion kit for Type 3's. Will only work with 12-Volt shrouds. Comes with CNC Billet bracket (Made in USA) and Continental belt. No modifications needed.

55-60 Amp Type 3 Alternator Kit.....9448

Wosp Gear Reduction Starters

Having problems starting your high compression engine or do you simply want an upgrade? Wosps range of brand new high output, lightweight, gear reduction starter motors are completely adaptable to your individual requirement.

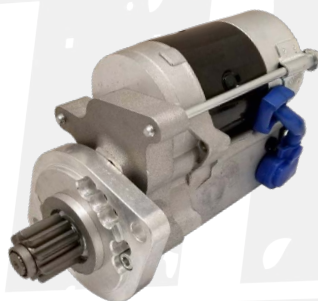

17-2953

Fits 12-Volt Beetle, Ghia, Type 3, Thing and 002 Bus thru 1975

Self-supporting
No Bushing Needed

525lb of torque
1.0KW
4.4 gear reduction

TYPE 1 PERFORMANCE BRAKE SYSTEMS

EMPI is proud to release our new line of Performance Disc Brake Kits. These kits provide the ultimate in performance and style for your Type 1 Beetle.

- Upgrade from OE drums or rotors to Zinc-plated, Left & Right Directional, drilled & slotted rotors.
- Each kit comes with Premium brake pads that provide increased friction, stopping power, and higher fade resistance in a clean and quiet running low dust style pad.
- Comes with heavy duty cast mounting brackets (where applicable).
- Drum to disc bolt-on kits are available. Simple bolt-on installation with no modifications required.
- Kits include all hardware needed and detailed installation guide.
- All front disc brake kits are supplied with dust caps.
- Wheel studs are NOT included.

Bolt-On Front Disc Brake Kits

Fits:
68 & Later Type 1

Converting your '68 & Later Type 1 (except S/B) from drum to disc is made simple with this true Bolt-On Kit. Features heavy duty cast brackets that bolt directly to your stock spindles - then calipers to the brackets. Hardware is included. Wheel studs are not included.

These kits will only work with stock-style, drum brake spindles.

Ball Joint Kit, 4x130 with 14x1.5mm threads..... **22-6142**

Ball Joint Kit, Double Drilled,
5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads **22-6134**

Link Pin Kit, Double Drilled
5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads **22-6135**

All Link Pin Kits include conversion bearings and special BJ-style clamps. This eliminates double nuts.

Front Disc Brake Kit w/ Stock-Style Spindles

Fits:
68 & Later Type 1

The stopping power and safety of Disc Brakes in a bolt-on kit, including new stock-height Ball Joint Spindles. Complete kit includes backing plates, calipers w/ pads and rotors. Wheel studs are not included.

'66-'68 will require the use of '69 & later tie rod ends. Must use with minimum 15" wheels.

Ball Joint Kit, 4x130 with 14x1.5mm threads..... **22-6139**

Front Disc Brake Kit for Super Beetle

The stopping power and safety of Disc Brakes in a bolt-on kit. Complete kit includes mounting brackets, calipers w/ pads, rotors and two 10" metal brake lines to complete the installation. We recommend the purchase of new bearings and seals. Wheel studs are not included.

Must use with minimum 15" wheels.

Fits:
All Super Beetle

Super Beetle Kit, 4x130 with 14x1.5mm threads.....22-6140

Front Disc Brake Kits w/ 2-1/2" Drop Spindles

Drop your front stance 2-1/2" and add the benefits of disc brakes all in one package. Kits come with all necessary components including rotors, calipers & pads, wheel bearings & seals and hardware. Link Pin kits include brake lines, thrust washers and spindle nuts. Wheel studs are not included. Spindles are off-set 1/4", which widens your track a total of 5/8".

Ball Joint Kits require the use of '69 & later tie rod ends.

Must use with minimum 15" wheels.

Ball Joint Kit, 4x130 with 14x1.5mm threads.....22-6141

(Requires 69-on Style Tie Rod Ends)

Ball Joint Kit, Double-Drilled
5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads22-6132

(Requires 69-on Style Tie Rod Ends)

Link Pin Kit, Double-Drilled
5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads22-6133

Rear Disc Brake Kits w/ Emergency Brake

For Street Cars where emergency brake provisions are required, we offer these brake options. All kits include rotors, calipers w/ pads, heavy duty cast brackets, and hardware. Wheel studs are not included. **Must use with minimum 15" wheels.**

Fits:
58-79 Type 1

4x130 with 14x1.5mm threads, Swing Axle 1958-1967.....22-6143

Terminal Bulb Holder Screw.....**98-5297-B**
(Ref. 644 741 901 00)

VDO "356" Series Gauges

The VDO "356" Series Replica Gauges match the style of the classic Porsche 356 that inspired them. Each gauge is face lit, offered in a standard 100mm (4") diameter.

V519848

Combination Oil Temperature and Fuel Level Gauge

This 100mm 12-Volt gauge is face lit, and includes 4 warning lights: alternator failure (Red), oil pressure (Red), high beam indication (Blue) and an open/available green light. VW style fuel sending unit and a 300°F oil temperature sending unit required (both not included).

V519847

Tachometer (0 to 8000RPM)

This 100mm 12-Volt gauge is face lit, and runs from 0 to 8000 RPM. Redline begins at 6200 RPM. This is an electrical tachometer, driven from the distributor signal. Includes turn indicator lights, emergency brake warning light and driving light indicator.

V519846

120 MPH Speedometer

This 100mm 12-Volt gauge is face lit, and is a combo MPH / KM/H gauge, up to 120MPH / 180KPH. It can be driven by either GPS signal (P/N V340786 GPS Speed Sender, not included), or a magnetic Hall sensor.

VDO GPS Speed Sender

Used with P/N V519846 Speedometer Gauge.

GPS Speed Sender..... **V340786**

VDO "356" Series 200KM Gauge

100mm 200km max range gauge with analog input. Comes with U-Bracket mounting hardware.

VDO "356" Series 200KM Gauge **V432260**

VINTAGE 190 WHEELS

The Vintage 190 is a high quality purpose built performance wheel in the 5×205 bolt pattern. Light weight aluminum to mimic original style vintage wheels for those that demand a better wheel than what is currently offered in an aftermarket steel wheel.

Not only a beautiful wheel, but also a wheel with significant performance gains in braking and acceleration by reducing on average a total of 40lb of rotating mass. We are confident that there is no other performance wheel for the price point that will look or perform as well as the Vintage 190 5×205 wheel.

Bolt Pattern: 5×205
Back Spacing: 4"
Load Rating: 1180 lb
Lug: Ball Seat

SIMPSON D3 RESTRAINT SYSTEMS

The Simpson D3 Buckle does what no other buckle system can do by providing the ease and convenience of a sewn in harness without the shoulder straps being sewn to the lap belt. Its unique patented design eliminates the two shoulder strap links while still allowing the shoulder straps to be joined at the center of the buckle, truly emulating the V-Shape of a 5-Point Latch & Link System.

C.V. Joint Cap End

930 C.V. Joint end cap similar to the P/N 87-5870 but has a vent hole right in the center. This will help for severe off road applications when plunging of the c.v. joint is extreme. This creates a vacuum thus causing the boot to collapse.

Fits:
87-9469-B
87-9470-B
98-5094-B
98-5093-B

Blaze Cut Automatic Fire Protection System

Protect your cherished ride from potentially going up in flames with the Blaze Cut Automatic Fire Protection System. It uses HFC-236fa, which is an extremely effective, clean and people-safe extinguishing medium. If ever the temperature in your engine compartment rises to 248°F, the detection tube melts down, releasing the extinguishing agent onto the source of the fire.

For a demonstration, visit <https://www.blazecutusa.com/pages/videos>
